

MKS X SONIA LAUDET

MARKET SET signs its first collaboration with Sonia Laudet, a young and talented upholsterer designer. A creative and manufacturing lighting brand from the Bordeaux Region and a designer upholsterer from the Basque coast meet and gather around a common eco-design process.

Sonia Laudet graduated from Fashion Schools and completed her education with a degree in upholstery design. She expresses her love for textile materials and her ecological awareness through her work.

On the crossroads of design and craftwork, her resolutely contemporary approach is clearly in line with the Slow Movement. In fashion as in design, Sonia matches recycled textiles, brings rhythm to shapes and colors with a well-established singularity and a rigorous and meticulous know-how. Her artistic approach evokes her travels where lights and landscapes intertwine.

This project is above all sharing the same environmental and social values, which makes this collaboration self-evident. The recycling and recovery of scrap fabric lie at the heart of the project. The poetic and delicate result is an ode to the great passion Market Set and Sonia Laudet share for the textile.

Thus, Market Set launches "MKS X SL"

MARKET SET

SONIA LAUDET

NOSTALGIA

*At the crossroads of worlds and periods,
the «Neo Nostalgia» collection transports us
into a poetic and muffled universe.*

*The colours are warm, the lines round and the fabrics
velvety. We can distinguish flowers.*

*Flowers from a dream,
flowers brought back from a distant journey.*

SONIA LAUDET

MALACHITE

Elegant and sophisticated, this collection highlights the subtle lines of marble or malachite.

The mineral is in the spotlight.

The most classic colours are revisited here by a play of tone-on-tone textures, remaining chic and timeless.
